HOW TO

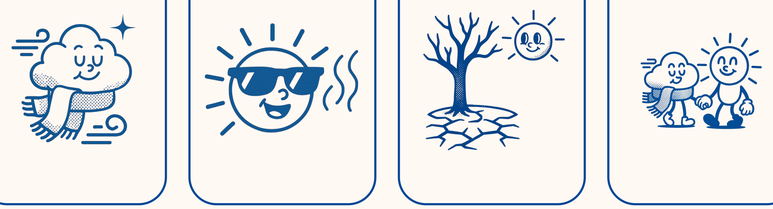
MR. COOL AC & HEAT UNIT

Don’t switch quickly between heat & cool, give it a few minutes.
Please turn off the unit when you’re out, thanks for helping us save energy!

1. Power On – Press the orange power button.

2. Choose Mode:

Cool	Heat	Dry	Auto
72°	68°	72°	73°



3. Set Temp – Use ▲/▼ arrows.

4. Fan Speed (Optional)
Press FAN to adjust.

5. Swing (Optional) – Press SWING for airflow movement.

6. Wait 1–3 minutes for warm/cool air.

For Cooling

Select Cool mode: Set temp to 72–75°F

For Heating

Select Heat mode: Set temp to 68–72°F
